

Buddy Farm Solutions Farm Effluent Irrigation Control

WWW.BUDDYFARMSOLUTIONS.CO.NZ

Gator Buddy is a premier failsafe effluent and irrigation controller, easy to use and install. Gator Buddy easily attaches to an existing irrigator, either as retrofit unit or a complete motor starter solution.

Gator Buddy shuts down the pump if the irrigator stops for any reason including:

- Irrigator at end of run
- Hose broken, leaking or disconnected
- Disengaged winch

Control Panel Features:

- Controls up to 2 travelling irrigators
- Green wash and transfer to pond functions
- Multiple stirrer options
- Pump protection
- Clear fault display and fault beacon
- Pump hour counter /service alerts
- Robust with high quality components
- Built under NZ Patent 551794/5552817

Everybody needs a Buddy.
