Feed BUDDY ®

Feed Buddy is the solution for the controlling of your dairy farm Grain Feeding System. It controls the augers and molasses dispensing onto your rotary platform.

Control Panel Features:

- Controls Augers, Molasses Pump + Molasses solenoids
- Cow in bail detection
- Auto movement of backing gate
- Easily adjustable feed times
- Uses laser sensors for accurate detection of all cows
- Can take inputs from Protrack system

Optional System Extras:

- 2nd Time round sensor
- count display

Everybody needs a Buddy.
