

## Buddy Farm Solutions Farm Effluent Irrigation Control

WWW.BUDDYFARMSOLUTIONS.CO.NZ

# Level BUDDY<sup>®</sup>

Level Buddy is a system for controlling a pump for either filling or emptying a tank or sump. It uses a submersible level transducer to detect the levels in your tank or sump.

### Control Panel Features:

- Controls pump and/or stirrer
- Separate level setpoints for starting pump and stirrer
- High level output
- Easily adjustable setpoints
- Clean contact outputs for control
- On/Off selector
- Level transducer for level sensing
- Remote input for control if needed

*Everybody needs a Buddy.*
