

## Buddy Farm Solutions Farm Effluent Irrigation Control

WWW.BUDDYFARMSOLUTIONS.CO.NZ

# Pivot BUDDY<sup>®</sup>

Pivot Buddy is the premier Failsafe Effluent Controller for underslung or injected effluent on your pivot. The Pivot Buddy easily attaches to any pivot and effluent pump either as a retrofit unit or a complete motor starter solution utilising the Effluent Buddy Controller. The Pivot Buddy shuts down the effluent pump if the pivot stops for any reason including - Pivot not moving or Hose broken, leaking or disconnected.

### Control Panel Features

- Pivot movement monitor
- Fits to any pivot
- Multiple pivots can be added
- Use in conjunction with traveling Irrigator
- Monitors effluent pressure
- Starts pivot when effluent present
- Built under NZ Patent 551794/5552817

### Optional Extra Features

- Buddy Remote - allows full monitoring of pivot details or effluent + water
- Flowmeter installation

*Everybody needs a Buddy.*
