Washdown
BUDDY®

Washdown Buddy is a solution to enable constant pressure from your washdown pump no matter how many hose nozzles are open. Makes it easy for holding hose if only one is open.

Control Panel Features:

- Constant Pressure
- High Quality Danfoss variable speed drive
- Pipe temperature monitoring for over temperature of pump pipework
- Control Selector
- Remote on/off input
- Sleep mode - If no flow is detected it goes to sleep and automatically starts when water required

Everybody needs a Buddy.
